INDIAN COATINGS & PAINTS INDUSTRY

The industry is riding high on the growth in the Indian automobile industry, new construction in the housing segment and improving infrastructure throughout the country and burgeoning middle class with new aspirations and buying power. Over the past few years, the Indian paint market has substantially grown and caught the attention of many international players.

Industrial coatings constitute 30% by value and 23% by volumes; The Rs 40,600-crore Indian paint industry is likely to see a 20 per cent compounded annual growth rate until 2016, according to the Indian chamber of commerce, ASSOCHAM. The demand from retail consumers, rapid urbanization, and development of rural markets is the reason for this forecast. The industry will reach the level of Rs 62,000 Crore in the next two years. India is the second largest consumer of paint in Asia. Rs 10,962 Crore was contributed by the industrial segment.

THE EXPO - WHY SOUTH INDIA?

With the recent boom in infrastructure, housing sectors and other allied industries, South India has turned to be the most happening place in India. Chennai is one of the fastest growing cities in the world and it homes 30% of India's automobile industry. As of now, with its Rs.100,000 crore investment in the pipeline over 5 years, the city is poised for major industrial investment. The city is also well connected by its Port facility, Road & Rail and International Airport. The infrastructural and industrial segments have been finding new heights in the city with the collective investments from the public and the private sectors.

Chennai, with its good connectivity to all other metros and major towns in South India, undoubtedly is the hub for entire South India and the most preferred Expo centre in South India.
